PROGRESSIVE-SPEAK

The intellectual **purpose** of **Newspeak** is to make Ingsoc-approved thoughts the only expressible thoughts. As constructed, **Newspeak's** vocabulary communicates the exact expression of sense and meaning that a member of the Party could wish to express.

PROGRESSIVE-SPEAK

Part One, Chapter Five of 1984, **Winston** is lectured by his friend Syme on **Newspeak**, which **is the** official language of Oceania. ... He goes on to say that the purpose of cutting the language down is to "narrow the range of thought" and therefore eliminate the possibility of ever committing Thoughtcrime.

PROGRESSIVE-SPEAK

- G. Orwell: "Politics & The English Language"

is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind". Orwell believed that the language used was necessarily vague or meaningless because it was intended to hide the truth rather than express it. This unclear prose was a "contagion" which had spread to those who did not intend to hide the truth, and it concealed a writer's thoughts from himself and others.
